

LUNACY TESTS SOON TO END

Mrs. Thaw Is Ordered To Appear Before The Commission Tomorrow Morning.

JURY EXCUSED UNTIL THURSDAY

Have Petitioned To Court To Allow Them Five Dollars A Day Instead Of Two, Owring To Length Of Trial.

[BY ASSOCIATED PRESS.]
New York, April 1.—When the jury in the Thaw case was called before the court today Justice Fitzgerald adjourned again the trial until Thursday morning. The lunacy commission will meet tomorrow and it is expected they will be ready to report by Thursday.

Want More Pay.
The members of the Thaw jury have drawn up a petition to Justice Fitzgerald asking him to allow them \$5 for jury services instead of the customary allowance of \$2. Their action is based on the instance in which a court made a similar increase in a jury's allowance after a case had been extended to unusual length.

Mrs. Thaw Wanted.
When Mrs. Evelyn Nesbit Thaw made her daily visit to her husband in the tombs today, she was met by a process server who handed her a subpoena directing her to appear before the lunacy commission tomorrow.

MORE CONFERENCES AS TO SITUATION

Government Officials to Confer Again With Railroad and Trainmen On Question.

[BY ASSOCIATED PRESS.]
Chicago, April 1.—The situation in the controversy between the railroads and the trainmen and conductors was not today materially changed from yesterday. Another series of conferences will be held during the day, in which Chairman Knapp of the Interstate Commission, and Secretary Neill of the United States labor commission, will be active participants. Knapp and Neill believe the terms are satisfactory to both and may ultimately be reached.

The railroad managers claim that the demands of the men are unreasonable in the extreme and it is not believed that the public would tolerate a strike at the present time, in view of the very liberal concessions which have been made to the men in recent months.

Of the eleven principal western roads, that pay out yearly in wages \$224,000,000 the Southern Pacific heads the list with a payroll of \$30,000,000, and together with the Union Pacific forms the largest element in the acute wage situation now pending. The two Harriman lines, pay out \$12,000,000 a year more in wages than the Great Northern and the Northern Pacific combined.

The Brotherhood of Railway Trainmen and the Brotherhood of Railway Conductors have rejected offers of increases which amount to about 10.5 per cent, in addition to the higher wages ranging from 12 to 15 per cent granted three years ago. The roads represented in the recent conference in Chicago, including Union and Southern Pacific, the Atchafalaya, Burlington, Northwest, St. Paul, Illinois Central, Rock Island, and others, offered a 10 per cent increase in the freight service, which means practically an increase of from 15 to 18 per cent in helper and construction train service, notwithstanding a 15 per cent increase in 1903 to the same men. Passenger conductors were offered \$10 a month more, brakemen and flagmen \$5, and baggage men \$6 a month, the increase offered would give them \$150 a month, with "layovers" of as much as 42 and 48 hours on the Union Pacific.

Other concessions were made by the railroads in allowing overtime to men in the passenger service, and fixing 10 hours or less, 100 miles or less, to constitute a day. The increase offered in overtime rates was 10 per cent. Overtime for conductors, brakemen, flagmen and baggage men was to be allowed on the basis of 15 miles an hour at 35 cents an hour; 20 cents per hour for other trainmen. The engineers were satisfied with increases no better, if as good, as the trainmen and conductors have rejected.

Railroad managers say that an entirely new spirit is manifest among their employees under the present leadership of the unions. In place of the disposition to meet the employers on fair terms, the predominating element now appear to favor coercive measures. An instance of this, the railroad managers claim, is the present threat of a strike to enforce the extreme of the men's demands. The increase of railroad accidents due to lax discipline is also said to be a noticeable result of the present leadership of some of the railway brotherhoods.

Several of the railroad managers have indicated that the increased wages offered are the best that they can make, especially in view of the fact that with labor forcing wages up and the state legislatures forcing earnings down, the prospect of decreased revenues must be taken into consideration.

BEGIN SURVEY FOR THE PROPOSED ROAD

Madison Dispatches Say Columbia Construction Company of Mil- waukee Began Work Today.

If the reports from Madison can be believed Manager Montgomery has fully made up his mind relative to the proposed interurban road to Janesville from the Capital City. The Columbia Construction company of Milwaukee it is said has been engaged to run the preliminary survey. The route proposed in the Madison papers is around Lake Monona touching at several of the summer resorts. From the plans laid out it would appear as though the road it built, would come down around the bend of Lake Waubesa, touching perhaps at its eastern shore, thence down the eastern shore of Lake Kegonsa through Stoughton, and then to Stoughton and Indian Ford. The talk that the road will be built first around Lake Monona gives rise to the idea that the road to Janesville is merely visionary as yet. The route now talked of is the one which Mr. Phil Spooner had surveyed when he asked for a franchise six years ago.

ROOSEVELT PLEADED WITH EGG-ROLLING

Spent Much Time Today in Watching Several Thousand Children at Easter Monday Sport.

[SPECIAL TO THE GAZETTE.]
Washington, D. C., April 1.—Several thousand children, boys and girls, black and white, from the infant to the 10-year-olds, participated in the annual egg rolling festival on the White House grounds today. An equal number of grown-ups looked on and enjoyed the festivities. The green slopes of the south grounds are well adapted to egg rolling, and it was a pretty sight to see the sport. It was President Lincoln who originated the custom of inviting the children of Washington to roll their eggs in the White House grounds on Easter Monday, and the precedent has been followed by all his successors. President Roosevelt has always displayed a lively interest in his Easter Monday guests, and today he stepped to the window many times to watch the children at their frolics. The younger children of the White House, including the comely Archibald, viewed the egg rolling from the shelter of the portico.

[BY ASSOCIATED PRESS.]

CHANGE IN CONTROL OF ILLINOIS MINES

Properties Are in Hands of Robbins Who Was Recently Ousted From Pittsburg Company.

[SPECIAL TO THE GAZETTE.]
Chicago, Ill., April 1.—At the annual meeting here today of the Illinois Coal and Coke company it is probable that the control of the company will pass from the Pittsburg Coal company to the Monongahela River Consolidated Coal and Coke company. The change in control is the direct result of the recent removal of F. L. Robbins from the presidency of the Pittsburg Coal company. The Illinois company is the largest company in the state, operating eight great mines. The Pittsburg company has heretofore controlled it through owning 20 per cent of the stock. Mr. Robbins holding Mr. Robbins, who is president of the Monongahela company, will likely become president of the Illinois corporation.

SWIFT JUSTICE FOR CRIMINALS IN OHIO

New Rules of Supreme Court Will Prevent Attorneys From De- laying Cases.

[SPECIAL TO THE GAZETTE.]
Columbus, O., April 1.—If new rules put into effect in the Ohio supreme court today accomplish the results for which they are intended, they will in future be fewer "law delays" in the criminal practice before that tribunal. The new rules provide that when a motion for leave to file a criminal case is filed in the supreme court, the petition in error must be presented with it and left in the clerk's care. If the motion is granted, the clerk will file the petition instantly. It is further provided that within 60 days from the filing of the case the plaintiff in error must file his printed brief, and within 90 days the defendant's brief must be filed. Under these rules it will not be more than 100 days after a criminal case is first called to the attention of the court before it is ready for argument. Under the old rules attorneys were able to delay cases of this kind for nearly a year.

HIGHER FREIGHT RATES GO INTO EFFECT TODAY

Advance Of From Five To Ten Per Cent On Coal Tariffs Will Raise Price Of Product.

[SPECIAL TO THE GAZETTE.]
Pittsburg, Pa., April 1.—The new coal freight rates recently announced by the trunk line railroads, an advance of from 5 to 10 per cent over the old schedule, went into effect today. The coal companies in Maryland, Virginia, West Virginia, Pennsylvania and Ohio are affected. Increased cost of operation is given by the railroads as the reason for the advance in rates. A slight addition to the price of coal will probably result from the advance in railroad rates.

Forerunner of General Advance.
Chicago, Ill., April 1.—Increased rates on grain and grain products from Chicago to the seaboard were put into effect by the railroads today. The rate during the past two years has ranged from 13 1/2 to 15 cents a hundred. The new rates are from 17 1/2 to 19 cents. While the increased cost of operation is given by the railroads as the reason for the increase in rates, it is generally believed that the action they have taken is meant as a counter blow for the adverse railroad legislation recently passed in so many states. It is believed further, so many states. It is believed further, so many states. It is believed further, so many states.

Commission Appealed to.
Kansas City, Mo., April 1.—The freight rate on grain shipments from the Missouri river and points west to Mississippi river points, Chicago, Minneapolis, Memphis, and Little Rock, was today 1 1/2 cents a 100 pounds. The board of trade of this city has protested against the increase and the matter probably will be taken before the Interstate Commerce Commission.

LAKE SHIPMENTS TO BE DELAYED SOME

Boatmen Caught Napping When Ice Went Out of the Soo This Spring.

[SPECIAL TO THE GAZETTE.]
Chicago, April 1.—Lake shipping was caught napping here last week when news came in that the ice had broken up in the Straits of Mackinac. The owners of the Chicago fleets had based all their calculations on navigation's opening about April 10 and the boats were not ready for the first trip. As a result, work is being hurried on all steamers and vessels and it is probable that many of them will get out before April 10, although not as early as they might have if the open season had not come so unexpectedly. There is still heavy ice at Escanaba which will prevent iron ore shipments from there for a while. There are no ice fields in Lake Michigan, except in the extreme northern portion, and the ice in Lake Superior is not so thick as it was at this time last year.

MAPLE SYRUP HAD A POOR SPRING SEASON

Report from Wisconsin's Maple Sugar Center Reports the Crop Is Very Poor.

[SPECIAL TO THE GAZETTE.]

PUBLIC NOTICE
To the People of Janesville
All persons in Janesville must hold
themselves responsible for any weak-
ness or suffering caused from old age,
chronic coughs or colds, bronchitis,
weak lungs, run-down conditions,
stomach troubles, nervousness or poor
blood when we are willing to sell them
the real cod liver preparation, Vinol,
and return their money if it does not
benefit.

The reason Vinol is so successful in
restoring health and creating strength
is because it contains in addition to
tonic iron oil the medicinal elements
of cod liver oil actually taken from
fresh cods' livers, but without oil or
grease to upset the stomach and re-
tard its work.
Unlike old-fashioned cod liver oil
and emulsions, it is deliciously palat-
able, agreeable to the weakest stom-
ach, therefore, unequalled as a
strength creator and tonic reconstruc-
tor.
A member of the Smith Drug Co.
says: "It is because we know so well
of what Vinol is made that we ask
every run-down, nervous, debilitated,
aged or weak person in Janesville, and
every person suffering from stubborn
colds, hanging-on coughs, bronchitis
or incipient consumption to try Vinol
on our guarantee." Smith Drug Co.
NOTE—While we are sole agents for
Vinol in Janesville, it is now for
sale at the leading drug store in nearly
every town and city in the country.
Look for the Vinol agency in your
town.

Tobacco and Sugar Beets.
The high price which has been paid
for Wisconsin tobacco during the past
few years, has made it difficult for the
sugar beet factories in tobacco dis-
tricts to contract for the necessary
acreage. The sugar beet is, however,
to have its inning. The tobacco
growers have not had a happy year
of it. Tobacco was contracted for at
high prices but delivery, which has
been in progress for a month or more,
has developed a very unsatisfactory
condition of affairs.

Apparently the general tobacco
market did not warrant the high
prices for which contracts were made,
and buyers, to save themselves, have
demanded that the farmers live up to
the letter of the contracts as to qual-
ity and general character. The re-
sult has been that a large portion of
the Dane county crop has been de-
livered at less than the prices con-
tracted for.

Naturally this has offended the
growers, who would not have com-
plained at the prices received, if they
were not below what they expected.
It is so easy for a buyer to point out
defects in the harvested crops, if he
have reason to be critical, and hard-
ly by a contract made could be enforced
by the growers, to the latter. The ill
feeling growing out of this has given
the farmers a more tolerant feeling
toward beet-raising and the sugar
factories will find it easier to con-
tract for acreage this year than it
has been for several years.—State
Journal, Madison.

ST. PAUL ROAD LAYS

OFF SECTION MEN

Several Janesville Workmen Without
Jobs—Union is Being Or-
ganized.

In compliance with orders received
from the head offices of the Chicago,
Milwaukee and St. Paul railway com-
pany, several section men residing in
Janesville, have been laid off. It was
announced in Milwaukee last week
that for every workman thrown out
of employment in this position of the
country another would be added on
the Pacific extension operations in
order that the work be completed be-
fore the winter of 1907-08. Many
Janesville railroad men take a differ-
ent view of the matter. They find
two causes for the move. One is re-
trenchment—that is, the companies
are cutting down expenses to coun-
teract the losses sustained by two and
two-and-a-half cent fare legislation.
The other reason is undoubtedly of-
fense among section men. Wages
were recently cut from \$1.50 a day
to \$1.40 and since then a union of
section men has grown like a mush-
room and threatens to demand \$2.00 a
day for laborers and \$75 a month for
bosses.

Our Needs for To-Day.
How significant, how exhilarating
are these words! Not the life when
we have passed the gate of pearl, but
the life that is not, not our life when
we stand on the brow of the transfig-
uration mount, but the life at home,
or in the daily walks and common
places of existence. It is possible
that there is a life to be lived in the
common round and the daily task, so
royal, so radiant, so blessed, that
those who live it may be said to reign
in life.—Rev. R. B. Meyer.

Before The Footlights.

Geo. M. Cohan is evidently setting a pace for the writers of so-called musical comedy. Over a year ago he remarked in a newspaper interview, that the eye was tired of tinsel and color schemes, while the ear was growing weary of clap-trap melody. "The day for the big chorus and charload of music has seen its day," remarked Mr. Cohan. True to his convictions, his next play "Forty-Five Minutes From Broadway" only contained five musical numbers while the

tells her that in point of fact he spent the night at the home of a friend after they had missed the last car. When she asks the name and address of the friend he manufactures both. The man's name is John Brown he lives in Pickleton-on-the-Thames. The wife thereupon wires John Brown and asks him to call; husband discovers telegram, confides secret to best friend, who happens in, and agrees to impersonate Brown. This arrangement progresses satisfactorily until the real

HARRY CONNER, THE STAR OF "MRS. TEMPLE'S TELEGRAM"

chorus consisted of only eight girls and eight men. It was a daring innovation, yet the tremendous success of "Forty-Five Minutes From Broadway" has proved the wisdom of Mr. Cohan's theory. "Forty-Five Minutes From Broadway" will be presented at the Myers Theatre Friday, April 20.

"Mrs. Temple's Telegram." "Mrs. Temple's Telegram" is a farcical play in three acts written by Frank Wyatt. Its complications are brought about through the efforts of John Temple to convince his wife that the night previous to the beginning of the play he had been imprisoned in a lofty car on the Ferris Wheel and compelled to remain there until morning. When she refused to believe him, he determines that so long as she expects him to lie, he will, and he

Brown appears, and a real Mrs. Brown, and later it transpires that a lady who had been locked in the Ferris Wheel car with Temple was none other than the wife of the friend. The usual third act explanations clear up the tangle. No farce in recent years has been acclaimed so emphatically a success as this merry message of mirth. A competent cast composed of such well-known players as Harry Conner, Grace Renis, and others, are responsible to a large degree for the enthusiastic reception that this farce is being nightly accorded. "A laugh for every minute" is the way the management characterizes this humor, and it seems to be the sentiment of the majority of those who have witnessed the performance. Mrs. Temple's Telegram will be presented at the Myers theatre Tuesday, April 2.

CITY POLITICS

Tomorrow is election day. While Janesville is not in the midst of a bitter political fight, while the question of municipal ownership of the street railway or any public utility is to be settled, while neither of the political parties have seen fit to call to their aid spellbinders from other cities, every citizen should vote. There are aldermen to be elected, justices of the peace and a city clerk. The republicans have named Arthur Badger as their candidate for city clerk. His long tenure of office should make him invaluable to the taxpayers and council and new mayor. His election should be settled beyond question by a good, strong endorsement at the polls. Charles Reeder seeks re-election as justice for two years. He has no opposition, but the vote should be large to show his work meets the approval of the taxpayers and citizens. Stanley Tallman seeks the short term of one year. Mr. Tallman deserves a hearty support. He has been prominent in city affairs, and is fitted and qualified for the office. His vote should be large and his endorsement substantial. Tallman should be elected by all means. In the second ward the republicans have named Frank Snyder as their candidate for alderman. Mr. Snyder is thoroughly conversant with the city's needs and the best methods for supplying them. He is a progressive business man who would watch after the best interests of his constituents and honor them by his election. In the fourth ward Mr. Croft has been nominated by the republicans. Mr. Croft has in past years had much to do with street improvement. His election would add strength to the council and would do much towards aiding in bringing about a revolution in street making and street repairing. Mr. Croft has made a study of this work and the result of his study would be at the disposal of the taxpayers who could use it to an advantage. His election would be to the advantage of the taxpayers of the Fourth ward, where repairs are badly needed.

BOOST THE TOWN

It is all right to say, "Boost your home town," but it is pretty hard to keep on boosting and then find counter agents knocking. Last week an eastern man visited Janesville to investigate conditions. He met several gentlemen, supposedly interested in Janesville's advancement. These men deliberately knocked their home town. They said that Janesville was dead; that Madison and Beloit were much better cities. Think of that! Men who know the conditions as they exist; know the advantages of Janesville over either of the cities named, deliberately telling a stranger not to stop here, but to continue on his way. Such work as this will not aid in building up a community. It will not help make Janesville a bigger and more prosperous city. Boost Janesville. It has an ideal location. It has large railway yards about to be erected. It is to have interurban connection to the north; has it to the south; has excellent railroad facilities, fine electrical power, superb climatic conditions, and is an ideal location for a home or factory. Boost Janesville; do not knock.

Stanley Tallman deserves support in his fight for justice of the peace for the short term.

Arthur Badger has made a good and efficient city clerk. A vote for him means a continuance of the hand-

ling of city affairs in an able and capable manner.

Japan is building six fine vessels for American trade. Evidently the enterprising Japs expect before long to be furnishing us with matches, sewing machines and farm implements.

The Chicago Tribune doubtless feels hurt to think that Mr. Hearst thinks that he has been injured only \$2,500,000 worth by its articles. Hearst might have added another million to his suit as easy as not.

It is amusing how the Daily News of Beloit and the Free Press of the same city love each other. The same conditions exist in Madison between the Journal and Democrat.

Janesville wants more citizens and more business, more factories and better conditions. The way to get these is to boost the town; not knock it to strangers seeking information.

This question of lack of interest in city politics on the part of citizens not voting election day should be remedied tomorrow by a goodly delegation casting their ballots.

Even Roosevelt has trouble with his dentist. The cabinet meeting was cut short while the first gentleman of the United States went to the torture chamber.

Now that Lent is over and the good old boy has returned from the warmer regions he will find society ready to welcome him with open arms.

Hearst and his gang are in Chicago keeping things warm for the republicans, while Sherbie Becker of Milwaukee is there to stir up the democrats.

Chicago may have its traction fight if it wants it—may import Hearst to help out, but the newspapers want Busse for Mayor. See who wins.

If the trainmen strike the majority of the businessmen of the northwest will wish that Roosevelt's waterway system was in working order.

Janesville streets need attention. A vote for Croft in the fourth ward means a man who is fitted to superintend this work.

The British war office has removed the ban from American canned meat. Now the cause of imperialism can continue.

Easter bonnets and Easter gowns and suits did not fare well under the cover of winter furs and freezing weather.

A court in Nevada has sent the state railroad commissioner to jail for not showing his books to the court as ordered.

Warmer weather predicted. Well, March went out like a lion anyway, so the old tradition was not lost sight of.

Senator Foraker has made a challenge to Mr. Taft and Taft's friends have accepted. So much for this.

The question of the United States Senatorship will not be decided by the Free Press after all.

The game wardens are busy these days watching for any violations of the state laws.

Madison is at peace. Except for the war on the gas company it is quiet. The legislature has adjourned.

Roumania is doing its best to pull off a Russian revolution in a small way.

The Japanese may overrun Canada if they wish. Canada is seeking settlers.

Down in Louisiana they are picking peaches. Easter morning Janesville picked icicles.

Tomorrow is election day. Vote for good men for city offices. Be sure and vote.

Even good, old delivery horses revolt sometimes and run away.

Morocco may have to learn to speak French after all.

Chicago is now in the two-million population class.

PRESS COMMENT.

It Remains to Be Seen.
Oshkosh Northwestern: "Is there any significance in the fact that election day this spring comes immediately after April Fool's day?"

"Buster" Sherb.
Exchange: They are now referring to the boy mayor of Milwaukee as "Buster" Becker. And the chances are the latter rather likes it on account of the extra advertising it will give him.

Brazen.
Washington Herald: "I am not seeking vengeance, but it must be remembered that I have only two cheeks," says former Senator Burton. The impression prevails that the gentleman is mostly all check.

Bathhouse a Patron of Art.
Milwaukee Sentinel: And now Mr. McClure's magazine charges that Chicago's laureate, Bathhouse John, hires a man to write his beautiful poetry for him! Is there no limit to this magazine muck raking?

Champions the Outlaw's Wife.
Fond du Lac Bulletin: The log-

ging trust is examining itself in Sawyer county this week to give occasion for hiring another squad of thugs to get possession of the property belonging to Mrs. John F. Dietz.

Truly an Awful Thrust.
Milwaukee Free Press: When the Madison Journal wishes to be exceptionally nasty to its old neighbor, the Democrat, it makes some references to the Milwaukee Journal as "the leading democratic newspaper in Wisconsin."

Let It Go at That.
Madison Democrat: The Janesville Gazette is tired of the muck-raking campaign and wants someone to say something good. Well, here's to the Janesville Gazette, a mighty, good newspaper, bright, clean and up-to-date, but itself something of a muck-raker!

Hubby Is Bagged at Last.
El Paso Herald: A Los Angeles woman lost her husband and she had him cremated and carries his ashes around with her wherever she goes, in a hand bag. In life she never knew where he was, when he was out of her sight, but now she has him safe, and he can't get away.

Let Such Matters Adjust Themselves.
Exchange: The Lancaster Teller, discussing a proposition advanced by a university professor that small families are the result of a higher civilization, very pertinently asks if the husband and wife who have no children are eight times as civilized as the twain that have five beautiful daughters and three splendid boys? The question is one that embodies a suggestion worthy of more than passing notice.

That "Demand" for Bob.
Whitewater Register: Why has the Free Press stopped publishing letters from the "people" giving their choice for the presidency? It found room for about a score of such communications, from Tom, Dick and Harry, in a dozen or so four corner places that nobody ever heard of before, and then the spontaneous expression "petered out." Either the supply evaporated or the responses were not such as the Free Press folks wished to have.

Only Justice Is Slow.
London Daily Mail: Had Mr. White been shot in England, Thaw would have come before a police magistrate the following day and his case would have been dealt with in a few hours at Old Bailey at the July session. Only a few days would thus have elapsed between the act and the verdict of condemnation or acquittal. It is the freedom from technicalities and delays which American publicists most admire in English criminal law and its administration.

Greatest Era in World's History.
Superior Telegram: An old man named Beaubien died in Chicago the other day at the age of 85 years—and had the distinction of having been the first white male baby born in that city. There were half a dozen houses in Chicago then. A thousand years ago a century made but little difference with the affairs of mankind—in these modern times a century or even half a century, brings changes that appear miraculous in their magnitude.

"The American Terror."
Chicago Tribune: Mr. Hearst wishes the American public to take him seriously, and sometimes it has been blind enough to do so. It is his aim to be looked on as the "American terror," ready at any moment to shoot up a community that does not obey orders. He loves to have it believed that when he frowns and stamps his foot a whole city trembles. He poses as the "bad man" who must be placated or the cartoonists will be ordered to the front and mud will fly.

Yet Mr. Hearst is only a clown who tries to palm himself off as a pirate. "He is the jester and the jest." He is the incorporated buffoon who practices buffoonery in half a dozen cities, and thinks he is frightening people who are only laughing at him. Beneath the mask of the bogey man they can see the painted smirk of the clown.

There are a few left who take Mr. Hearst at his own valuation. Mayor Dunne is one of them. He, a simple, guileless man, took Mr. Hearst to be the ringmaster of the political circus instead of the clown, and ducked nervously when he cracked the whip. It is pathetic to see the mayor of Chicago taking off his hat respectfully to this professional New York jester.

LOCAL PARAGRAPHS.

Earl Gates Leaves: Earl M. Gates, the expert window trimmer at the J. M. Bostwick & Sons establishment, has relinquished his position to engage in business for himself in Beloit. His successor is F. M. Northwood of Chicago, who entered upon his duties today.

In The Padded Cell: Elmer Phelps, a young man who formerly assisted George Flaherty in operating the Hayes block elevator, appeared at the county jail early yesterday morning without coat, vest, shoes or hat, and otherwise in a dishevelled condition. He rang the doorbell and after gaining entrance acted in such a strange manner that it was deemed a wise precautionary measure to place him in the padded cell. Dr. Charles Sutherland was called upon and examination found that the young man

"Same Old Story"

A patient recently consulted Dr. Richards about needed family work. Had been paying \$10 each for gold crowns and was tired of the burden.

Said had been doing so for social acquaintanceship and friendship sake, but couldn't see the use any more of paying twice as much for work as was necessary.

This is the way people look at it. When the bill is presented for payment.

You may have the very best dental work obtainable in the city for \$5 a tooth and you may pay \$10 for the very same if you go blindly along. It's all in.

AUGUST PUTZKUHN RELEASED ON BAIL

Interesting Southern Land And Horse Cases Were Adjudged in Municipal Court Today.

August Putzkuhn, former signalman for the C. & N. W. Ry. Co., who was arrested on Saturday on the charge of making threats against Engineer Ross Dunwiddie on December 18, last, was released from the county jail this morning, August Strauss, section foreman, and Thomas Abbott, furnishing the \$1,000 bail bonds. His examination is set for Thursday morning at ten o'clock.

The trial of the civil action brought in municipal court by John S. Strator of Monroe, against James W. Scott, was adjourned until April 8 at ten o'clock in the morning. The plaintiff, it is alleged, entered into negotiations to trade the Judge Phelps farm in the town of Plymouth and pay \$11,000 additional for 1,380 acres of land in Virginia. It is claimed that he advanced \$80 at the time the property was turned over to the Southern Land Co., of Madison, and was to pay \$320 more in commissions when the deal was completed. The deal failed to go through and the plaintiff now claims that the farm is occupied by an undesirable tenant. For this he seeks to recover \$400 in addition to the \$80 commission. Attorney S. D. Tallman represents the plaintiff and Attorney T. S. Nolan, the defendant.

The trial of the action of Collins Williams vs. Carl Augustine was adjourned to April 10. Attorney Wilson Lane represents the plaintiff and Judge B. P. Dunwiddie the defendant. The plaintiff lives on the old Henderson farm three miles this side of Beloit. He claims to have purchased of the defendant on warranty for the sum of \$150; a horse which afterward proved to be stilted in one hind leg and curbed in the other. For all of which he seeks \$250 damages.

SUDDEN DEATH OF MRS. WINNIE TAYLOR

Former Janesville Resident And Daughter of Mr. and Mrs. E. J. Kent Victim of Paralysis.

Mrs. Winnie Kent Taylor, wife of Dr. E. B. Taylor of Huron, S. D., a daughter of Mr. and Mrs. E. J. Kent of this city, died at her home in Huron Sunday morning at 10:50 o'clock. The cause of her demise was a paralytic stroke which she suffered three days prior to the end. Mrs. Taylor was born in London, England, May 15, 1863, and when a small child came to America with her parents, settling in Janesville, which had always been her home until the time of her marriage. Mrs. Taylor was a member of the Congregational church here and by her loving disposition and Christian spirit endeared to herself scores of true, loving friends who will deeply mourn her untimely end. Besides a devoted husband and one son, there are left six sisters and two brothers. The funeral services will be held in Huron Wednesday afternoon and burial will be made in the cemetery there.

Harold Green in Runaway: Riding behind a maddened nag that took the thoroughfare at a 2:10 clip or better, Harold Green saw the telephone poles of South Main street merged in a vivid motion picture late Saturday afternoon. The thrilling experience came to a sudden termination, so far as the driver was concerned, when the delivery wagon in which he rode was hurled against Edward Amerpohl's Greenhouse vehicle, loaded with Easter flowers. Mr. Green was thrown to the street but escaped serious injury.

A BOLD STEP.

To overcome the well-grounded and reasonable objections of the more-intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broadcast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken his numerous patrons and patients into his full confidence. Thus too he has absolutely and completely removed his medicines from among secret nostrums of doubtful merits, and made them *Remedies of Known Composition*.

They are now in a class all by themselves—being absolutely and in every sense Non-secret.

By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid to subject them to the fullest scrutiny.

So many false formulas and malicious statements concerning his medicines had been published through the contrivance of jealous competitors and disgruntled doctors, that Dr. Pierce determined to completely disarm his assailants by a full and frank statement of their exact composition, verifying the same under oath as complete and correct. This he has done and to the complete discomfiture of those who had assailed his good name as well as the well-earned reputation of his world-famed medicines.

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomach, torpid liver or biliousness and all catarrhal diseases wherever located, have printed upon it, in plain English, a full and complete list of all the ingredients composing it, but a small book has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to any one sending address on postal card or by letter, to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. From this booklet it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral agents or other poisonous or injurious agents and that they are made from native medicinal roots of great value; also that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervous, over-worked, "run-down," nervous and debilitated women, were employed long years ago by the Indians for similar ailments affecting their squaws. In fact, one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription was known to the Indians as "Squaw-Weed." Our knowledge of the uses of not a few of our most valuable native medicinal plants was gained from the Indians.

As made up by improved and exact processes, and with the use of special designed chemical apparatus, the "Favorite Prescription" is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health.

GREENE AND GAYNOR APPEAL IS CALLED

Case, Which Resulted in Conviction Last April, Has Been Dragged Along For Seven Years.

[SPECIAL TO THE GAZETTE.]
New Orleans, La., April 1.—The long-drawn-out case of John F. Gaynor and Benjamin D. Greene, who were convicted of conspiracy with ex-Captain Oberlin M. Carter in the Savannah harbor improvement frauds, was called for argument here today before the United States circuit court of appeals. Marion Erwin appeared for the government and P. W. Meldrum for the defense. The case of Greene and Gaynor has now been pending for more than seven years in one form or another, involving arguments before judicial bodies in the United States, Canada, and England. After the original indictment had been found in Savannah in 1889 there followed about two years of preliminary examination in New York. Then following a brief hearing in Savannah they were for more than three years fugitives in Canada while the United States government carried their cases to the privy council in England before finally securing their extradition. In January, 1906, their trial began in Savannah, nearly five years after they had been first taken there for trial. They were declared guilty last April on charges of conspiracy, embezzlement and presenting false claims. Convictions were secured on the claim that they conspired to defraud the United States government by inducing acceptance of their bids at a higher cost than conditions warranted on contract work in Savannah harbor. They were sentenced to four years imprisonment each and to pay a fine of \$575,000, which equals the entire amount paid them by the government for the Savannah work. They are now in jail in Macon pending the result of the present appeal.

JAPANESE GRADUATE IS IN AGRICULTURE

Introduces Improved Dairy Methods in Land of the Mikado—Writes of Dairy Industry in Japan For "Student Farmer."

Madison, Wis., April 1.—Sen Utsunomiya, a graduate of the college of agriculture of the University of Wisconsin, has recently returned to America from Sapporo, Japan, where he owns a dairy farm. Though it will cost him \$125 for every cow which he exports to his native land, he was willing to come across the ocean for a carload of pure-bred dairy cattle, as it is impossible to buy pure stock in Japan. In an article which he wrote for the current number of "The Student Farmer," the new student magazine, he tells of his efforts in establishing dairy herds on the island of Hokkaido, in the extreme northern part of the Japanese empire. After graduating from the University of Wisconsin agricultural college he went back to his native land penniless. He hired a single cow and an acre of land, and paid for them out of the first year's products. From that one cow has developed his herd of 40 milk cows and 20 young stock, which yielded him

last year 10,000 pounds of butter. As butter sells at 40 cents per pound all the year in Japan, and beef is 12 or 13 cents, dressed weight, in winter, he has been able to buy himself a fine 50 acre farm a half mile from the city of Sapporo, where a population of 50,000 insures him a ready market for all his dairy products. The Japanese government has recently laid a heavy import tax on all dairy products, amounting to \$13.50 per 100 pounds for butter and \$7 or \$8 for 100 pounds of cheese. This high duty has given great stimulus to the native production, as the importation has been much lessened and demand for the home product increased. Mr. Utsunomiya has made a pioneer movement toward the introduction of alfalfa into the Japanese islands, as fodder, by sowing a field last year in which he secured a good stand. In concluding his article, "he writes that, in his opinion, American dairies need more sunshine in the stables, more care regarding cleanliness in milking, more attention to stamping out tuberculosis, and a large number of pure-bred sires in the herds."

Marriage Licenses. Claude E. Richards and Miss Estelle Baker, both of Evanston, obtained a marriage license and special permit to wed at once, at the court house, Saturday afternoon. (Superintendents of schools are not to be voted for in the cities of Janesville and Beloit.) INFORMATION TO VOTERS.

The following instructions are given for the information and guidance of voters: A voter upon entering the polling place, and giving his name and residence, will receive a ballot from the ballot clerk, which must have endorsed thereon the names or initials of both ballot clerks, and no other ballot can be used. Upon receiving his ballot, the voter must retire alone to a booth or compartment, and prepare the same for voting. A ballot clerk may inform the voter as to the proper manner of marking a ballot, but he must not advise or indicate in any manner whom to vote for. If he wishes to vote for a person for a certain office, whose name is not on the ballot, he must write the name in the blank space under the printed name of the candidate for the office. The ballot should not be marked in any other manner. If the ballot be spoiled, it must be returned to the ballot clerk who must issue another in its stead, but not more than three in all to any one voter. Five minutes' time is allowed in booth to mark ballot. Unofficial ballots or memoranda to assist the voter in marking his ballot can be taken into the booth, and may be used to copy from. The ballot must not be shown so that any person can see how it has been marked by the voter. After it is marked it should be folded so that the inside cannot be seen, but so that the printed endorsements and signatures of the ballot clerks on the outside may be seen. Then the voter should pass out of the booth or compartment, give his name to the inspector in charge of the ballot box, hand him his ballot to be placed in the box and pass out of the voting place. A voter who declares to the presiding officer that he is unable to read, or that by reason of physical disability he is unable to mark his ballot, can have assistance of one or two election officers in marking the same, to be chosen by the voter; and if he declares that he is totally blind he may be assisted by any person chosen by him from among the legal voters of the county. The presiding officer may administer an oath, in his discretion, as to such person's disability. The party designations and candidates for the different offices are, for example, as follows:
